Appendix D: Definitions

Name	Description
Follow-Up Dialysis Clinic Visit for Independent Health Facility (IHF) Patient	<p>A multi-disciplinary team clinical assessment for patients receiving regular hemodialysis at an IHF, which may include diagnostic testing, treatment and/or intervention. The visit may occur at a Regional Centre, at the IHF or via telemedicine.</p> <p>Measured by the number of clinic visits.</p>
Follow-up Clinic Visit for Home Peritoneal Dialysis Patient	<p>A multi-disciplinary team clinical assessment which may include diagnostic testing, treatment and/or intervention of the patient having peritoneal dialysis at home. The visit may occur in person or via telemedicine.</p>
Follow-up Clinic Visit for Home Hemodialysis Patient	<p>A multi-disciplinary team clinical assessment which may include diagnostic testing, treatment and/or intervention. The visit may occur in person or via telemedicine.</p>
Education Clinic Visit	<p>For patients at the point of making decisions regarding dialysis modality choice or those who have started dialysis without education about modality choice, i.e., patients must be pre-dialysis (eGFR < 30) or on dialysis. These patients may also be separately followed in a pre-dialysis or nephrology clinic.</p> <p>Visits are dedicated to education about chronic kidney disease, its complications and treatment options. The goals are to promote patient self-management and to support informed choices on renal replacement therapy, including dialysis treatment modality.</p> <p>Note: Treatment Event is currently collected in ORRS</p>
Education Clinic Visit: One-on-one Individualized Sessions	<p>Provided as an individualized 60-minute 1:1 education session with any level nurse working in an educator capacity (e.g. Nurse Practitioner, Nurse Educator, Nurse Coordinator, Registered Nurse). This does not include the nurse providing dialysis treatment.</p> <p>A 60-minute education visit may be spread over a maximum of 3 encounters with the patient. However, the program should only report, and will only be reimbursed for an equivalent, one visit. Education clinic visits may be reported as follows:</p> <p>1 visit = 1 encounter of 60 minutes or greater</p> <p>1 visit = 2 encounters of 30 minutes or greater</p> <p>1 visit = 3 encounters of 20 minutes or greater</p> <p>Measured by the number of visits.</p> <p>Note: Treatment Event is currently collected in ORRS</p>

Name	Description
Education Clinic Visit: Group Sessions	<p>Group education sessions provided by more than 1 health care educator to a group of patients.</p> <p>Measured by the number of group sessions.</p> <p>Note: Treatment Event is currently collected in ORRS</p>
Pre-Dialysis Clinic Visit	<p>Interdisciplinary clinic dedicated to the optimal care of patients with a progressively declining eGFR< 30.</p> <p>The goal of the pre-dialysis clinic visit is to provide management to: slow progressive eGFR decline; prevent, monitor and treat the multisystem complications of CKD and co-morbid illnesses; and prepare for renal replacement therapy.</p> <p>Requires that patient be seen by at least 3 of following health professionals: Nurse or Physician Assistant, Dietitian, Social Worker, Pharmacist/Pharmacy Technologist, or Physician.</p> <p>Note: service recipients include patients with failing transplants and eGFR<30.</p> <p>Note: Treatment Event is currently collected in ORRS</p>
Total Care	<p>Under full care of trained staff affiliated with a nephrology unit.</p> <p>Note: Care required is currently collected in ORRS</p>
Limited Self Care	<p>Receives a minimal amount of assistance from trained staff affiliated with a nephrology unit (not including family member(s)). This level of care can be utilized when patient is undergoing home training.</p> <p>Note: Care required is currently collected in ORRS</p>
Total Self Care	<p>Patient is completely responsible for his/her own treatment, with no assistance from nephrology trained staff. A patient may be classified as total self-care if he/she receives assistance from family member(s) or home care worker who is not a trained staff affiliated with a nephrology unit.</p> <p>Note: Care required is currently collected in ORRS</p>
