INTRODUCTION

This edition of the Master Numbering System is an expansion and update of the 2011 version, inclusive of all changes up to April 1, 2012. This edition contains five separate listings:

- This publication has been designed primarily for use by those involved in completion of the CIHI abstract as well as for physicians and practitioners who require this information to submit claims for payment through the Ontario Health Insurance Plan. Other users should contact the Ministry of Health and Long-Term Care, Health System Information Management and Investment Division, Health Data Branch, Data Development and Maintenance Unit, for further information concerning their use of the system.

Five pieces of information are provided to assist in coding/finding the correct Master Number and Facility Number:

- Determine the location of the facility or program. Since several facilities in different Locations may bear the same name, verify the location before proceeding:

Location of facilities and programs within Metropolitan Toronto are listed under the locationToronto.

Example:	Barrie	Royal Victoria Hospital	AP 1825
		Royal Victoria Hospital	CR 1826

MASTER NUMBERING SYSTEM

Effective April 1, 2012

Introduction

The Ministry of Health and Long –Term Care Master Numbering System has been developed for the purpose of bringing together all Health Facilities and Programs under one system of identification. The list is a composite of health and health related units, facilities, clinics, programs and services. Each such organization has been assigned a unique four digit identifying code.

This publication has been designed primarily for use by those involved in completion of the CIHI abstract. Other users should contact the Ministry of Health and Long-Term Care, Health System Information Management and Investment Division, Health Data Branch, Data Development and Maintenance Unit, for further information concerning their use of the system.

Facilities and programs are identified by a type code which indicates a broad service classification. Care must be taken to identify the correct service classification by type since various types of service may be provided within one facility.

Please note that due to space limitations on field lengths, some facility names have been truncated or abbreviated and do not necessarily constitute legal names.

In addition to the listed hospital sites, hospitals may, from time to time, run programs and services from various other locations to accommodate program growth, provide services closer to clients etc. Please call the hospital directly for specific details.
